## **Suzlon secures new order of 252 MW from CLP India Private Limited**

- To supply 120 units of S120-140m HLT with rated capacity of 2.1 MW each
- Project to be completed in 2022 in Sidhpur, Gujarat with total installed capacity of 252 MW
- Part of bid won by CLP India under Wind Tranche VIII Bid issued by SECI
- Suzlon's scope: Limited scope of Supply, Foundation, Erection and Commissioning, along with Operation and maintenance thereafter for respective scope
- A project of this size can provide electricity to ~1.83 lakhs households and curb ~8.28 lakhs tonnes of CO2 emissions per year

**Pune, India:** Suzlon Group, India's largest renewable energy solutions provider, today announced its new order win for development of a 252 MW wind power project from CLP India. Suzlon will install 120 units of S120-140m wind turbine generators (WTGs) with a Hybrid Lattice Tubular (HLT) tower, with rated capacity of 2.1 MW each. The project is located in Sidhpur, Gujarat and is expected to be commissioned in 2022.

Suzlon will execute the project with a scope of supply, foundation, erection and commissioning. Suzlon will also provide comprehensive operation and maintenance services post commissioning.

Rajiv Ranjan Mishra, Managing Director, CLP India said, *"We are excited about growth opportunities in India, and our shareholders CLP Group and CDPQ share a vision to invest in a low carbon, clean energy portfolio in the country. Our Wind Energy Project in Sidhpur, Gujarat is our largest renewable project at a single site. It is a testimony of our commitment towards India's renewable goals. We are pleased to partner with Suzlon, given their technologically advanced products, EPC capabilities, operations and maintenance services."*

Speaking on the order win, **Ashwani Kumar, CEO, Suzlon Group said,** *"We are delighted to partner again with CLP India for their Wind Energy Project in Sidhpur, Gujarat. CLP and Suzlon have enjoyed a long and fruitful association and share a common vision for an energy secure India powered by sustainable and renewable sources of energy. This is the first big order that we have announced post our debt restructuring closure in line with our plans to restart business operations and lead the Indian Wind Energy market from the front. We are seeing an increased interest from all our stakeholders and customer segments to invest in renewable energy. Suzlon's expertise in the Indian Wind Energy Market over the last 25 years offers convenience and reliability to customers for setting up wind power projects in India's varied wind regimes."*

The S120-140m WTGs feature the time tested Doubly Fed Induction Generator (DFIG) technology that efficiently integrates wind turbines into the utility network, to meet the grid requirements. Suzlon's next

generation turbines are designed to optimally harness wind resources at higher altitudes making low wind sites viable.

**About CLP India:**

CLP India is owned by the CLP Group, one of the largest investor-owned power businesses in Asia, and Caisse de dépôt et placement du Québec (CDPQ), a global investment group. Founded in 2002, CLP India has gradually grown its footprint to become one of the largest foreign investors in the Indian power sector. Its diversified portfolio comprises over 3,000MW of electricity generation capacity including wind and solar energy projects across seven states, as well as transmission assets.

**About The Suzlon Group**

The Suzlon Group is one of the leading renewable energy solutions provider in the world with a footprint across 18 countries in Asia, Australia, Europe, Africa and Americas. Headquartered at Suzlon One Earth in Pune, India; the Group is comprised of Suzlon Energy Limited (NSE & BSE: SUZLON) and its subsidiaries. A vertically integrated organization, with over twenty five years of operational track record, the group has a cumulative global installation of over 18.8 GW of wind energy capacity, over 5,600 employees with diverse nationalities and world-class manufacturing facilities. Suzlon is the only Indian wind energy company with a large in-house Research and Development (R&D) set-up in Germany, the Netherlands, Denmark and India. Over 12.8 GW of the Group’s installation is in India, which makes up for 34% of the country’s wind installations, making Suzlon the largest player in this sector. The Group is the custodian of over 12.8 GW of wind assets under service in India making it the 3<sup>rd</sup> largest Operations and Maintenance Company (over 8,900 turbines) in Indian power sector. The Group has 1.0 GW of wind assets under service outside India.
