

PRESS RELEASE

Apraava Energy organises its first zero-waste event

Mumbai, December 18, 2025: Apraava Energy, India's leading integrated energy solutions provider, hosted its first zero-waste event as part of its continued commitment to sustainability. As a result of this initiative, 170 to 200 kilograms of potential waste generated at the event were prevented from ending up in landfills.

The event, held in Mumbai with close to 200 guests, brought together Apraava's alumni community and reflected the company's core value of Sustainability through Responsibility, ensuring that every aspect of the gathering, from decor to dining ware, followed environmentally responsible practices.

Apraava worked closely with its vendors and partners, including the hotel, event management agency and sustainability advisor, to minimise environmental impact and design an event that was both memorable and mindful.

Key highlights of the initiative included:

- The branding materials were made from cloth instead of flex, which will later be recycled into reusable carry bags in partnership with an NGO. Additionally, MDF materials will be reused by the event management agency.
- No single-use plastics or tissues were used at the event.
- Food waste was minimised through portion planning, a curated menu in collaboration with the hotel.
- Separate waste stations were set up to ensure effective recycling and composting.
- As part of the zero-waste approach, alumni attending the meet received socially sourced giveaways handcrafted by underprivileged communities in Chandigarh, Punjab, and accompanied by kitchen garden seed kits from tribal communities in Konkan, Maharashtra.

Commenting on the initiative, **Deepa Sebastian, Chief Human Resources Officer, Apraava Energy**, said, "Our first Alumni Meet was not only a celebration of the people who have been part of Apraava's journey, but also an opportunity to put our values into action. By making it a zero-waste event, we aimed to demonstrate that sustainability can be seamlessly woven into how we come together as a community, with thoughtfulness, accountability, and purpose."

Apraava Energy continues to embed sustainability at the heart of its operations, culture, and engagement practices, reaffirming its vision to power a greener, more responsible future for all.

About Apraava Energy

Apraava Energy is India's leading integrated energy solutions provider head quartered in Mumbai. It is jointly owned by the CLP Group —one of the largest investor-owned power businesses in Asia and La Caisse (formerly CDPQ), a global investment group.

Founded in 2002, Apraava has evolved from being a single-asset business to a forward looking, climate-conscious organisation spread across 13 states in India. Its portfolio comprises ~3.4 GW of installed capacity which includes ~1200 MW of wind and 250 MW of solar energy projects, a 1320 MW coal-fired super critical power plant and two power transmission assets (~494 kms). In addition, four greenfield transmission projects (~500 kms of transmission lines and substations with over 10 GW of combined capacity), a wind project (300 MW) and two solar projects (550 MW) are under construction. The company has also forayed into Advanced Metering Infrastructure (AMI) business and is executing orders of ~7.8 million smart meters in Assam, Gujarat, West Bengal, Himachal Pradesh, Rajasthan, Puducherry and Madhya Pradesh.

Apraava Energy is among the handful of Indian power sector companies to commit to the SBTi and only the second in the sector to have them validated.

The company aims to invest in low-carbon growth areas, including renewable energy, power transmission and distribution, as well as other non-generation, customer-focused energy businesses.

Apraava is proud to be certified as a Great Place To Work® for the second consecutive year (Dec 2024 – Dec 2025), reflecting its commitment to fostering a workplace built on trust, performance, and positivity. In 2024, the company was also featured among the Top LinkedIn Companies in India.
